## WHO WE ARE

Ehsan Global is a leading for-profit company dedicated to serving communities.

We strive to make a meaningful impact through the construction of mosques, digging of wells, and the distribution of essential resources.

Distinguished by our quality, honesty, transparency, and clarity, we are committed to promoting sustainable development and ensuring equal opportunities for all.

We have taken it upon ourselves to carry goodness to the world and reach the most underserved places.

## Our Mission

We do not limit our dreams by borders.

We believe in the power of solidarity and giving to build stronger and more hopeful communities.

**We create hope through our actions:**

- Building mosques for the soul.
- Digging wells for life.
- Distributing food baskets to relieve hunger.
- Providing water to nurture hope in every heart.

Join us on this journey to spread goodness and ignite the light of hope everywhere.

## Our Vision

Our vision is to build a sustainable society characterized by cooperation and solidarity — a society where we contribute to creating an environment that fosters development and progress for all.

We provide the opportunities and resources needed to achieve inclusive growth, personal advancement, and community prosperity.

## Our Values

We are committed to delivering exceptional services built on quality, honesty, transparency, and clarity.

Our aim is to carry goodness to the world, achieve sustainable development, and provide equal opportunities for all.

# General Contracting

# General Contracting

Our company undertakes construction projects abroad, relying on a strong network of certified and officially accredited contracting partners in the countries where we operate.

We are committed to delivering the highest standards of quality through documented contracts, as well as direct engineering and administrative supervision at every stage of the project.

## Work Mechanism

- Collaboration with certified contractors with proven track records in each country.
- Accurate and well-studied project pricing before execution.
- Complete project management, from planning to delivery.

## Our Services

- Project study and evaluation of blueprints.
- Providing competitive quotations.
- Executing construction works with high quality.
- Continuous engineering and administrative supervision

## Our Advantages

Ability to implement projects in multiple countries through trusted partners.

Guarantee of compliance with technical specifications and quality standards.

A highly skilled and experienced team.

Flexibility in handling diverse types of projects.

THANK YOU
